Replacement Inflatable Packers and Elements Pty Ltd is a Perth Western Australia based company. We manufacture standard and custom inflatable packers, and associated equipment for diverse specialist disciplines.

In addition we manufacture or modify, as requested, existing OEM inflatable packers (including Bimbar inflatable packers and many others).

Our product lines include all inflatable packers, standard wireline packer systems, bridge plugs and abandonment packers, termination packer plugs, reline casing packers and seals, high pressure cement grouting packers, decommissioning grout valve packers, permeability testing packers, water well hydrofracture packers, complete water well drill stem testing (DST, Lugeon testing) packer systems, fully vulcanized K packers also known as bore packers as well as PVC Blind K packers.

Replacement Inflatable Packers and Elements Pty Ltd manufacture and provide all associated hoses and fittings including flowmeters and inflation gauge boards.

Additionally, we provide a down water well/ borehole CCTV camera water well inspection service, and will provide NATA hydrostatic pressure testing certification as required.

Our products service specialist industries and sectors including waterwell, oil/gas, environmental and site investigations, geotechnical, civil and mining, drilling and tunneling, onshore and offshore, exploration and extraction industries.

Replacement Inflatable Packers and Elements Pty Ltd expanding customer base services not only Australia but important global markets including France (oburateurs gonflables), Italian (packers gonfiabili), Germany (schlauchpacker), Spain (obturadores inflables), India, USA and South America, China and the Middle East.

Whatever your requirements, we look forward to applying our expertise to achieve practical and economical packer solutions on your behalf.
