Replacement Inflatable Packers and Elements Company Profile

By: Replacement Inflatable Packers and Elements, John Misson

Replacement Inflatable Packers and Elements Pty Ltd is a West Australian company with 25 years experience in designing and building inflatable packers.

Replacement Inflatable Packers and Elements Pty Ltd maintain a strong competitive profile, demonstrating leadership and innovation in applying cost effective inflatable packer solutions to your engineering demands.

Replacement Inflatable Packers and Elements comprehensive product line includes all standard and purpose built inflatable packers including wireline packer systems, swage packers, reline casing packers, water well permeability and drill stem test packers, cement grouting packers, as well as decommissioning grout valve packers, inflatable bridge plugs, abandonment packers and seals. Fully vulcanised 'K' packers, water well float shoes and all inflation lines, flowmeters and custom inflation gauge boards.

Replacement Inflatable Packers and Elements Pty Ltd high pressure inflatable packers (to 12,000 psi /83 mPa) are an essential tool for hydrofracturing, pre-conditioning for block caving operations and high pressure cement grouting procedures.

Our reliable high pressure packers are finding ready acceptance, especially in the water well sector, as we do not believe operators should pay oil field prices for water well development.

Replacement Inflatable Packers and Elements Pty Ltd products service specialist industries including water well and borehole development, oil and gas production, environmental and site investigations, geotechnical, mining/drilling and exploration and extraction industries.

Replacement Inflatable Packers and Elements Pty Ltd's expanding customer base services not only Australia, but important international including France (obturateurs gonflables), Italian (packer's gonfiabili), Germany (schlauchpacker), Spain (obturadores inflables), India, USA and South America, China and the Middle East. Whatever your requirements, we look forward to applying our expertise to achieve practical and economical packer solutions on your behalf.
