Water Well Casing Float Shoes

RIPE Float Shoes are specifically designed to suit water well applications. Non return check valves are used to prevent back flow of cement into casing.

RIPE float shoes are made up of all drillable parts, without compromising on the strength, for the ease of drilling after completion has occurred.

RIPE float shoes (single or double valves) can be manufactured in mild steel, stainless steel and also PVC to suit the customers' application requirements. Available sizes range from 4" SHED 40 to 12" SHED 40, All other sizes available on request.

ALL LENGTHS AND DIAMETERS AVAILABLE ON REQUEST
